Saturday's temps were cool all day. Probably didn't get above 75°. Light switchy winds were predominant. With only 11 shooters (4 targets, 3 relays) due to Covid protocols the match went quite fast. First relay sent lead downrange shortly after 8:30 AM.

Kurt Inham took Match Winner with a 589-18x. Cameron Keating finished strong to take 2nd place. Martin Tardif led the F-Class shooters. There was a brief technical hiccup at the beginning of the third string when 2 sensor hubs went down at the same time. After replacing them with fresh hubs the match hummed along and ended without further interruption. Total time was approx. 4-1/2 hrs. with the delay.

Special thanks to "Gentleman" George Carr and Matt "Tap Master" Thompson for helping with set up in the morning and take down after the match. Also thanks to Paul Schultz, Cameron Keating and Darren Rosenbaum for also helping with take down.

Hope to see you all at the next Long Range match on Sunday, June 30th. \_\_\_\_\_
