Vladimir Sanda	MA	0.00	0.00	0.00	0.00	dnf

Sunday's match had great weather, light winds with the occasional 10-15 mph gust, warm temps but not hot. For this match we went paperless, no scorecards, but we used the scorers to confirm the shooter was on target and for any electronic anomalies. We did have 2 crossfires so it was decided to have a cease fire and staple large colored card stock to the upper left corner of the first 3 targets to assist in identifying each target. Next match all targets will have separate colors. John Stewart 198-13x, shot the high score for the day on the first match.

Randy was high sling with 197-7x. Marc was high shooter for the second match with 198-7x. Damon 198-5x was high F-Class. Rob Ableson took high score on the final match with 196-7x. Martin 'Creedmoored' Damon to take high F-er. Damon Martin was Match Winner with a commanding 591-19x. He negotiated some fiendish switching winds with aplomb. Good show, well done. Randy Tessedre was high sling with the next highest score 584-28x. Quite the impressive X count.

Special thanks to Mark Bower, Marc Mittry, and Rob Ableson for their help with set up and take down. And of course an arigato to Shot'Mark'er Bower for helping to run the match and confirming target shot quality before and during the match.

Total match time was a little over 5-1/2 hrs. We'll try to whittle that down next match. And to that point it would be a great help if we could get 2 more volunteers to help with set up/take down. Dont make me beg but there may be a perk involved for those that are first to volunteer. See you in June.

"Believe the wind, it's smarter than you are."
