6						
Rodin Mik	1	6	2	6	0 - 3	18

*S=Sitting, O=Offhand, K=Kneeling, P=Prone

The day started a little chilly but with excellent conditions as we marched out approx. 600 yards from the 200 yd. flag to the 1st stage

Stage 1) 5 steel targets from 85-210yds., 2 shots per, 10pnts. poss.(PP), Time Limit (TL)-60sec, . Starting from Offhand w/bag & sling, near to far. Targets 1 & 2 Offhand, targets 3 & 4 sitting, target 5 prone. **Henry** raced through this stage with his trusty .223 bolt gun for high score.

Stage 2) After moving back to stage 2 (and after a 1hr. fog delay)...5 targets from 140 to 210+yds., Kneeling w/tripod, 2 shots per, 10 PP, TL-90sec., starting with the steel IPSC target across the creek and up the hill, transition to 4 of the previous 5 targets. **Phil** ("rookie" shooter) mowed down everything in front of him to clean this stage.

Stage 3) Shot from the 600yd. target berm, 5 steel targets from 100 to 400+yds., S/P w/bag, 1 shot per, 10 PP, TL-90sec., starting from sitting with a popper and ipsc at 100yds., trans. to prone for 3 targets from 386-400yds., repeat. **Henry** showed us the advantage of shooting with a non recoiling rifle on this stage.

Stage 4) Shot from the 380yd. flag berm, KYL target, segmented target and 204yds. and 4 from 590 to 625yds., 10 PP, TL-90sec. From sitting w/2bags on tank trap, clean KYL/Center lollypop, trans. to prone and engage 4 Mid-Range targets. Difficult stage to clean, **Geoff** came out on top with 8 hits. Stages 6 and 7) Timed Exposure and Movers - 5 and 15 pnt. possible.

Stage 6) Stage 6) Timed X - 420yd, 5rnd, 5x3sec. exposures of an 8.5"x11" colored cardboard square on a 1"x2"x6' stick. Each shooter is assigned a color and must engage it when exposed at random points along the target berm.

Stage 7) Movers - IPSC cardboard torsos with corresponding color (from Timed X), 15rnd, 5x15sec. exposures, 15 PP. All targets appear at random points along target berm and move at patrol speed (@1.5mph) for 15 sec., then they are lowered and the sequence repeats 4 more times. **Martin** and **Henry** cleaned the Timed X and **Geoff** was high score on the movers to take the 600yd.

Geoff Tyndall - MW (again!) Good shootin', Geoff!

Thanks to all the challengers the next Tactical Challenge will be on May 25th (unless notified otherwise). We will probably repeat this course of fire...with adjustments to increase the difficulty.
Match Director - Martin
