4	Martin Tardif	1	0	0	2	5	7	15
5	Michael Pollard	1	0	0	1	0	11	13
6	Hal Dennis	0	1	0	4	0	5	10
7	Rodin Mik	1	3	0	1	1	2	8
9								

Stage 1) Cold Bore Shot - (This match was shot from the Highpower line.) 1 shot for score plus a follow up to confirm , if needed at the silhouette placed at @380 yards.

Stage 2) Barricade - We broke in the new railroad tie barricade with loopholes that Jay Tillitt and Hal Dennis constructed recently. Big thank you to them. 7 points possible (PP), 2 shots each from 4 designated loopholes, no time limit (NTL). **Conner** blazed through this stage and nearly cleaned it.

Stage 3) Spinner - Always challenging. 10 shot limit at 250yds. If you get it right you can rack up 7 points. 3 shots to get it to spin is 1 point, transition to silhouette at 380yds. and get 6 more hits for a clean. **Conner**, with 5 hits, got high score, again.

Stage 4) KYL - 10 shot limit, 10 PP, NTL, KYL set at 380yds., clean the 5 plates and transition to the 12" plate at 600yds. **Steve** started pulling ahead of the pack on this stage, in a big way, with a clean!

Stage 5) Timed Exposure - 5 shot limit, 5 PP, 5 - 3 sec. exposures of colored 8.5"x11" paper at 600yds. **Martin** finally woke up on this stage with a clean.

Stage 6) Movers - 15 shot limit, 15 PP, 5 - 15 sec., moving cardboard IPSC torsos at 600yds. Talk about waking up, **Michael** tore through this stage like Long Tran through a column of VC. Waytogo, Mike!

**Steve Goldman MW** - Looks like Steve is back in his 'world domination' form with a 30 out of 45 possible. Good shooting, Steve!

Thanks to all the challengers for setting up and staying to help take down the targets. Keep a weather eye for the next Tactical Challenge (June 22). I think we'll try this COF again, it seemed pretty challenging. Special mention to Conner, our active duty military, for his "Most Improved Shooter" performance.

Hope to see you all back next month.
