Notes:

The Aggregate is the total of the two highest scoring strings in the offhand position

* = non offhand practice string

SR = Service Rifle

MR = Match Rifle

Notes:

An "All Offhand" format was used instead of the usual Across the Course Match COF this month. Each shooter was given three 30 minute block periods to shoot whatever COF they wanted at either 200 or 600 yards. ShotMarker targets were used. Prizes were determined by adding the top two offhand scores for each competitor. The format received good feedback so I expect we will run a similar format in the December match.

Congratulations to Match winner George Carr who fired an impressive 391-12x, no one came close to George's score. Other class winners were;

Rob Ableson, HM 384-11

Darren Rosenbaum, MA 371-5

Jeff Butler, EX 372-9

Next month's match will be the regular Across the Course format. We will have an early start given September is usually pretty hot at BRRC.
